

Colin A. Martin is the Division Chief of Pediatric Surgery and the Brad and Barbara Warner Professor of Surgery and Surgeon in Chief of St. Louis Children's Hospital at Washington University. He completed his general surgery training at the University of Cincinnati in 2010 he completed his Pediatric surgery training at Vanderbilt University. He then joined the faculty at UAB in 2012 where he had numerous roles including Vice-Chair for Diversity Equity and Inclusion and the Surgical Director for the UAB center for advanced intestinal rehabilitation. To compliment his clinical interests, he has developed a basic science research program. The long-term goal of his research program is to define the mechanisms of how environmental psychological stress during pregnancy affects intestinal immune dysfunction and injury in newborns. Dr. Martin's research program has been funded by the National Institutes of Health, American Surgical Association, Association for Academic Surgery, and the Society for Surgery of the Alimentary Tract. Dr. Martin has also developed a record of service with membership and leadership responsibilities within the following national organizations: The Society of Black Academic Surgeons, The Surgical Biology Club II, the Halsted Society, Association for Academic Surgery, the Society of University Surgeons, the Society for Surgery of the Alimentary Tract, and the American Academy of Pediatrics Section on Surgery.
